Six ports Cuba estimated Aug. 24th, 219,500 tons against 209,890 tons corresponding period previous year. United Kingdom estimated Aug. 22d, 128,000 tons against 170,419 tons, same date in 1902. Total stocks in all the principal countries by cable Aug. 27th, at latest uneven dates, 1,953,244 tons, against 1,986,923 tons; decrease from last year 33,679 tons.

Eastern and Foreign Markets—The firmness observable in both Raws and Refined noted in our previous circular, was followed for a limited period by a slightly easier feeling, while refiners temporarily withdrew from the market. It shortly became apparent, however, coincident with a resumption of activity in Refined on a more moderate scale, that holders in Cuba and elsewhere, encouraged in all probability by the unquestioned soundness of the statistical position of Cane Sugars in this country, were uncompromising in maintaining a firm attitude in the direction of higher prices. The patience of sellers was rewarded by a sharp advance in quotations when Refiners again entered the market, and the improvement thus established has continued uninterruptedly, culminating in transactions of considerable magnitude at still higher prices on Aug. 25th. At

this juncture, buyers having supplied their immediate wants, and inclement weather succeeding, both buyers and sellers manifested indifference, the resultant effect of which is seen in a dull, quiet market for Raws, according to latest mail advices from New York under date of Aug. 29th. As regards Refined, the volume of business was fair at the close both in the form of withdrawal and new business. In this connection it is interesting to note, however, that the fruit crop of the season under consideration, not having been as good as formerly, sugar for canning purposes has been less required, and furthermore domestic beets will soon commence supplying some of the western sections of the country.

European beets have remained steady with very slight fluctuations, but according to telegraphic reports have weakened to some extent since the first of the present month. It is reported that the weather is favorable in Germany and Austria but rather too wet in France and Belgium. A noteworthy feature of the situation has been the brisk demand for the refined product in the United Kingdom, and prices have strengthened no doubt in consequence.

Charters—Transactions have been on a more liberal scale than noted in our last, but at lower rates; last charter a spot French vessel 158, 9d. orders, 9d. less direct, to load barley.

Exchange—London demand, \$4.86 7-8; sixty days sight, \$4.83 3-4; New York regular, 05c; telegraphic, 07 1-2.

CHARGE OF CONSPIRACY

Attempt to Annul the Holt Girl's Marriage.

Guardian Claims She Was Married for Her Money.

Also Says Girl is of Weak Mind and Did Not Know What She Was Doing.

A petition for the annulment of the marriage of Eliza R. P. Holt to Albert Christian, charging conspiracy to obtain possession of the girl's property, was filed yesterday.

The girl is only seventeen years of age and the suit for annulment was filed by her guardian, Annie Holt Kentwell. The guardian makes serious charges against the husband and against George Sea, which the latter claim are false. They say that the father of the girl gave his consent to the marriage.

In the petition filed yesterday it is alleged that Annie Kentwell is first cousin of Eliza R. P. Holt, and was appointed guardian of her person and property on September 13, 1900, by Judge Humphreys.

It is also set out that on January 5, 1903, plaintiff as guardian had to institute proceedings against her ward, Eliza Holt, before Judge Wilcox, on a charge of disobedience, and that she was found guilty and sentence suspended for one month. It is then alleged that after sentence was suspended she went to the home of George Sea, to whom her child, which had been adopted by Mr. and Mrs. Sea.

It is then alleged "That the said Eliza R. P. Holt is the daughter of John D. Holt, Sr., who at the time hereinafter to be mentioned, as well as at the present time, is possessed of a life estate in a large amount of valuable real estate in the Territory of Hawaii, all of which said property, upon the death of him, the said John D. Holt, Sr., will become the property in fee of the said Eliza R. Holt, if she survive him, and she t'e said Eliza R. P. Holt will become in the ordinary course of affairs a woman of wealth and of large estate. That the said Eliza R. P. Holt is also possessed in her own right of valuable real estate within the Territory of Hawaii, and was so possessed at the times hereinafter mentioned, all of which said facts were well known to the said George C. Sea and his wife, and to the said Albert Christian made defendant herein."

"That on or about the 26th day of January, 1903, and within less than one week after the suspension of the sentence by the District Magistrate as above related, the said Eliza R. P. Holt, an incompetent, being under the influence and command of the said George C. Sea and wife, was influenced, persuaded and compelled to go through the performance of a certain pretended marriage ceremony, performed by the Rev. Father Clement on the 26th day of January, 1903, with the said Albert Christian, who, in conspiracy with the said George C. Sea, and in pursuance thereof consented to and aided and abetted in persuading and coercing the said Eliza R. P. Holt into the said pretended marriage.

"That at the time of entering into said pretended marriage, the said Eliza R. P. Holt was incapable by reason of mental imbecility from knowing or understanding the obligations of the marriage contract, and in fact was incapable by reason of her defect, of understanding, in entering into or performing any contract of what nature or kind soever, and by reason thereof was incapable of disposing of her person or property; and before said time, at said time, and up to the present time, never has the said Eliza R. P. Holt been capable of knowing or understanding the ordinary relations of life, being possessed only of the most infantile intelligence and by reason thereof, the said Eliza R. P. Holt was, at said time, has been continuously since, and is now absolutely unable to know or realize the duties and obligations of a married life, and that by reason thereof, the said pretended marriage was and is utterly and absolutely void."

"The petitioner believes and so alleges on belief, that a conspiracy was entered into and carried out between the said George C. Sea and Albert Christian to carry out said pretended marriage for the double purpose of attempting to relieve the said Eliza R. P. Holt from proper and legal guardianship, and with the ultimate purpose of eventually obtaining possession or control of the property at said time owned by the said Eliza R. P. Holt, and prospectively to be vested in her upon the death of her father, John D. Holt, Sr."

"That the said George C. Sea and Albert Christian then and there well knowing the defective mental condition of her, the said Eliza R. P. Holt, and by fraud and undue influence prevailed upon her to go through the performance of said marriage ceremony; and that by reason of having her, the said Eliza R. P. Holt, in the power of him, the said George Sea, he and the said Albert Christian were enabled to, in pursuance of their conspiracy, and did prevail upon her, so to do, and that it has been a notorious fact, and is at this time amongst all those who know her, that the said Eliza R. P. Holt has been a mental imbecile and incapable of knowing or conducting her affairs in any matters whatsoever."

The court is asked to annul the marriage. Christian is a purser on one of the island steamers.

WHAT IS PAIN BALM?

Chamberlain's Pain Balm is a liniment and, while adapted to all the ordinary uses of a liniment, has qualities which distinguish it from other remedies of this class. Pain Balm is especially beneficial for rheumatism. Thousands of cases can be cited in which it has effected a cure when the sufferer had previously tried the best medical service without securing relief. Pain Balm is positively guaranteed to give relief in the most severe cases of chronic or acute rheumatism.

Pain Balm heals bruises, burns and scalds in less time than any other treatment. It is "antiseptic" that is, it prevents putrefaction and by so doing, generally prevents an unsightly scar remaining after the injury is healed. For lame back, lumbago and neuralgia, Pain Balm has no equal. It has the quality of "getting to the right spot." No sufferer from these distressing affections should defer a trial of this remedy. One application gives relief. Try it. Benson, Smith & Co., Ltd., Wholesale Agents sell it.

JUDGE WEAVER TO OPEN COURT

Philip L. Weaver, the recently appointed judge of the Land Court, was a returning passenger yesterday morning by the Alameda after a visit of seven weeks spent in Boston and Chicago in studying the processes of the land courts in those places.

Judge Weaver states that it is his intention to start in holding court within a few days, the only obstacle being the necessary wait for the rules of the court.

Boston and Chicago land courts, according to Mr. Weaver, work very smoothly, the people generally recognizing the value of the system even to the railroad companies who find that the registering of new territory facilitates the quieting of titles. A great portion of Mr. Weaver's time has been spent with Judges Davis and Jones of the Massachusetts court who were more than willing to give him every assistance in observing all modes of local procedure.

A jury is allowed upon demand in the Massachusetts court but such a request has never been made although over 700 cases have been tried.

Printed blanks and data for preparation of the rules together with stamps for the court and its officers have been brought by Mr. Weaver. The rules of the court have to be approved by the Supreme Court and will be submitted to it early next week.

The Federal Crusade.

Shigematsu was arrested by U. S. Marshal Hendry yesterday on a warrant charging him with the importation of immoral women. He will be brought before Judge Estee this morning. Two Japanese women, Okame and Sismo, were arrested on a bench warrant under the Federal statute providing for the arrest and detention of material witnesses.
